PROTECTING AND IMPROVING THE ENVIRONMENT

It's not just people that need homes. From bat boxes, bee and swift bricks, to the planting we choose and wildflower seeds we sow, new homes for birds, bugs, and bees are always part of our developments.

ENCOURAGING LOCAL SUPPORT

The tireless efforts of charities and community groups across our region help protect the vulnerable, bring people together, and provide essential services to many. We are proud that the Denbury Charitable Fund has so far made over £1.6 million in donations and grants to help these inspiring organisations.

ENVIRONMENTS ENRICHED. COMMUNITIES ENHANCED

Our commitment to a sustainable future

Our homes are designed to blend seamlessly into existing cities, towns and villages, but we know it's more than just houses that make somewhere a great place to live. Whether it's the layout of our developments, our attention to detail when it comes to planting and encouraging biodiversity, or our support of local groups and charities, we are as committed as ever to creating a legacy that can be enjoyed for generations to come.

HELPING COMMUNITIES THRIVE

We carefully select the mix of homes for our developments. Different sizes and styles are chosen to meet local demand and establish a self-sustaining community. Footpaths, bike lanes, and public open space, all contribute towards a safe and welcoming environment, and help residents quickly settle in.

SMARTER HOMES IN TUNE WITH MODERN LIVING

Many of our homes have separate studies for homeworking, and all can be connected to Ultrafast BT Fibre broadband. Air source heat pumps fuel underfloor heating and radiators and individual room thermostats help keep your bills down and your home comfortable. All homes are fitted with electric vehicle charging units.

SUPPORTING LOCAL TRADES, SKILLS, AND BUSINESSES

Our East Anglian roots run deep so we always seek to support local businesses. Our developments create employment, help young people gain new skills and keep traditional building methods and skills in the limelight.

It is not possible in a brochure of this nature to do more than give a general impression of the range, quality and variety of the homes we have on offer. The computer generated imagery, floor plans, configurations and layouts are included for guidance only. The properties may vary in terms of elevational design details, position/size of garage and materials used. Such changes are due to our commitment to creating homes of individual character, although similar to others. Computer generated images will not reflect the appearance of all homes of that type. Please refer to elevation drawings and material schedules in the sales centre on the development. We operate a policy of continuous product development so there may be material differences between the accommodation depicted in our literature and that on offer on any particular development or at different times during the progress of any development.
